

CONTENT NOT APPEARING/DISPLAY ISSUES

Some course content in WTClass may not appear if you have not selected to view the content. Use one of the following methods to allow the content to appear:

Internet Explorer 8 - If you see a Security Warning prompt appear (as seen below), you will need to click "No" to be able to view the content.

Internet Explorer 9 - If you see a prompt appear at the bottom of the screen (as seen below), you will need to click "Show all content" to be able to view the content.

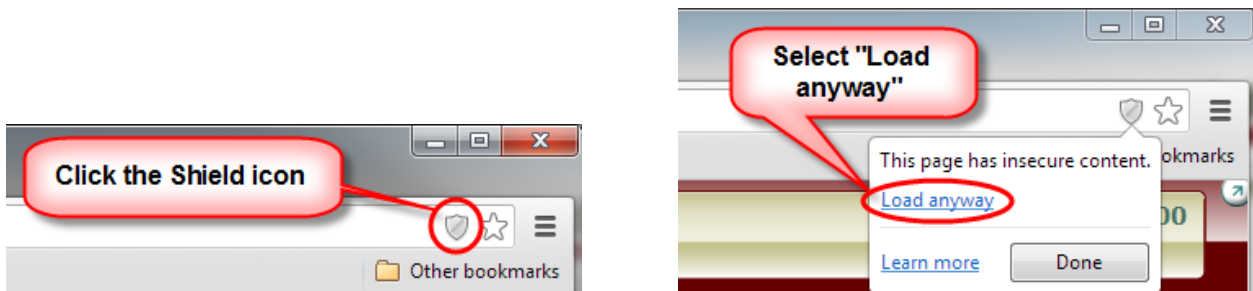

Internet Explorer 10 – Please place Internet Explorer into Compatibility Mode for IE10 to work. ([See handout](#))

Firefox version 23 (or higher) – If you see a "shield" next to the web address, select to "Disable Protection on This Page"

Chrome - If you see a shield icon in the address bar, click the shield, then select "Load anyway" to be able to view the content.

If you are unable to see these security warning, please close ALL of your browsers and try again.
